

Quick Tips For Using My Pace Numbers To Find Value:

Sprints – Respect the #1 and #2 early pace horses for the Win position

Routes – Respect the #1 and #2 early pace horses and the #1 and #2 late pace horses for the Win

Combined – Respect horses with the highest Combined number (3rd number)

Bankroll – Keep wagers at 2% (or less) of your total bankroll

Straight Win wagering – 2% of bankroll for straight Win bets.

Straight Win minimum odds – 4/1 or better.

Long Shot Tiered WPS – 1 Unit Win, 5 Units Place, 20 Units Show

Approx 34% of all races are won by either the #1 or #2 early pace horse.

Full card pace numbers for the major tracks (Thursday thru Sunday) are only available in the member's section at the website.

Visit my website to learn more about the monthly membership.

HowToPickLongShots.com/blog/

← Approx. 34% of races are won by one of the two early pace horses.

← These are the next two biggest threats for the Win position.

If "0 0 0" is listed for pace numbers, data is unavailable. Same for "no data".

Turf Report: take note of first time starters with turf pedigree. Also take note of horses with turf pedigree who are returning to grass after racing on dirt/synthetic.

Please check program numbers and pace highlights for accuracy.

Information is for entertainment purposes only.

There are three types of pace scenarios:

- 1) Fast to the ½ mile and then slow
- 2) Slow to the ½ mile and then fast
- 3) Evenly distributed pace throughout the race

My pace numbers are designed to reveal the different pace scenarios and help you spot potential winners you might otherwise ignore. **My pace numbers are based on a horse's most recent performance.**

4f Pace – This is a pace measurement for each horse based on the first 4 furlongs of the previous race.

Late Pace – This is a pace measurement for the remaining portion of the race after the ½ mile time.

Combined – This is a direct comparison of each horse against the others. The higher the number the better.

Class drop – the arrow indicates a significant class drop (minor class drops usually won't be noted).

Things to note:

The 4f Pace and the Late Pace can be compared against each other.

The Combined number can only be compared against combined numbers. Always respect horses with the highest combined number even if their 4F Pace or the Late Pace numbers are low.

Horses with the highest pace numbers (either 4F Pace or Late Pace) should always be respected.

Example: In a 6 furlong dirt race, the fastest early pace horse has a 100 pace rating. Its

Late Pace number is only a 25, and its combined number is a 12. Its Late Pace and Combined numbers are dismal compared to every other horse in the field. Should you ignore this horse? Never! This is one type of horse that can win in wire-to-wire fashion at a big price.

Horses that are ranked highest for early pace should always be considered for the win slot.

For a detailed explanation on how to use my pace numbers, read this PDF file on my site:

http://howtopicklongshots.com/blog/horse_racing_pace_selections/000_pace_numbers_explained.pdf

(there is a link to the file on the main page of the blog)
