

I track results for over 20,000 pace number combinations. For my daily selections based on that database, visit the main page of my blog at HowToPickLongShots.com/blog/

If "0 0 0" is listed for pace numbers, data is unavailable. Same for "no data".

Turf Report: take note of first time starters with turf pedigree. Also take note of horses with turf pedigree who are returning to grass after racing on dirt/synthetic.

7		6	TPs_#_67		SABINO
7	RTG/FGS	7			ALL FOR PEACE

Please check program numbers and pace highlights for accuracy.

Information is for entertainment purposes only.

There are three types of pace scenarios:

- 1) Fast to the ½ mile and then slow
- 2) Slow to the ½ mile and then fast
- 3) Evenly distributed pace throughout the race

My pace numbers are designed to reveal the different pace scenarios and help you spot potential winners you might otherwise ignore.

4f Pace – This is a pace measurement for each horse based on the first 4 furlongs of the previous race.

Late Pace – This is a pace measurement for the remaining portion of the race after the ½ mile time.

Combined – This is a direct comparison of each horse against the others. The higher the number the better.

Class drop – the arrow indicates a significant class drop (minor class drops usually won't be noted).

Things to note:

The 4f Pace and the Late Pace can be compared against each other.

The Combined number can only be compared against combined numbers. Always respect horses with the highest combined number even if their 4F Pace or the Late Pace numbers are low.

Horses with the highest pace numbers (either 4F Pace or Late Pace) should always be respected.

Example: In a 6 furlong dirt race, the fastest early pace horse has a 100 pace rating. Its

Late Pace number is only a 25, and its combined number is a 12. Its Late Pace and Combined numbers are dismal compared to every other horse in the field. Should you ignore this horse? Never! This is one type of horse that can win in wire-to-wire fashion at a big price.

Horses that are ranked highest for early pace should always be considered for the win slot.
